& a bundle of benefits

2nd place: 3.000 €

3rd place: 2.000 €

THEMES

IDEA OR INVENTION

- Novel or differentiated from existing products
- At one of these stages of the Innovation cycle: idea, proof of concept, prototype
- Addressing one of the three areas: Health, Renewable Energy, or Environment
- Not necessarily patented, but would be a plus
- Described in details, supported by schematic diagrams, info-graphics, literature articles etc., if applicable.

PROTOTYPE

- Novel or differentiated from existing products
- Already developed or will be later developed during the workshop
- State clearly the target or end users
- Feasible to develop in no more than 3 months
- Described in details, supported by schematic diagrams, info-graphics, literature articles etc., if applicable.
